

I am writing regarding the upcoming proposal to expand the Low Power FM broadcast service. I am a supporter and avid listener to AIR 1 Radio, a contemporary Christian rock station. Having such a "positive alternative" to other rock stations is truly a blessing for me, and I worry that if this programming were displaced by an LPFM broadcaster it would affect not only me, but other, younger persons (read "teenagers") in our community that need all of the positive, moralistic influences they can get. Please, please, consider this request as in the best public interest to keep Air 1, a station that provides family-friendly programming, available to as large an audience as possible and not be forced off the air in any areas by the expansion of LPFM stations!

Thank you for your consideration,

Cindy Stimmell
